TOMORROW

SHAPING DESTINY

BETWEEN HOPE AND EXTINCTION

For every progression we make with technology, are we regressing in other important ways? What are the hidden costs of the digital age, one that's marked with increasing overconsumption, overexposure and overpopulation? If humans are to thrive, will it be at the sacrifice of our environment and our values – or worse, our humanity?

It's time to take the future of humanity into our own hands by shaping the conversation and empowering communities with thought-provoking ideas and solutions. In our one and a half-day conference, you will join like-minded individuals to pave the way forward into a grander, brighter version of tomorrow.

Register now at www.iswc.com.my and be the change.
