Other special benefit packages

THE CONTEXT

Benefits Design Process Problem

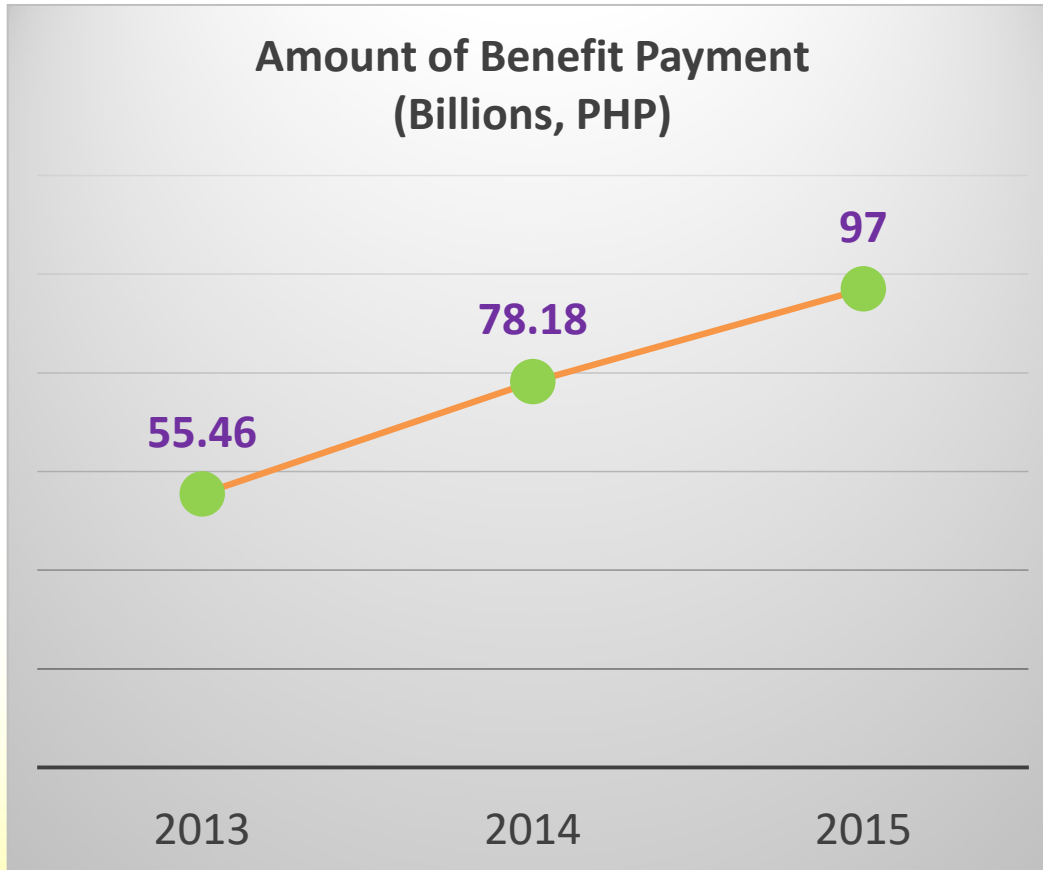

Policy Problems

-  Priority-setting process NOT explicit
-  Unequal access and lack of transparency of benefit development process
-  No prescribed standards of care for inpatient benefits
-  Uncertain cost coverage
-  Insufficient focus on preventive clinical interventions
-  Lack of delineation of who pays for what

PHILHEALTH BENEFIT PAY-OUTS

Benefit payment

2013 ~ PHP 1.1B a week
2014 ~ PHP 1.5B a week
2015 ~ PHP 1.9B a week

How much is PhilHealth paying for benefits?

PhilHealth benefit payouts are increasing (CAGR = 8%)

Bigger payouts BUT how is money spent?

Mismatch of Burden and Claims

Top Burden DISEASES

% DALYs

2 Lower Respiratory Infections (6.11)

4 Preterm birth complications (3.6)

10 Ischemic heart disease (2.8)

Does **NOT**
address **priority**
conditions

Top CLAIMS in 2014

in BILLIONS

1 Pneumonia Moderate Risk (10.2)

6 Stroke (3.8)

7 Diabetes (3.5)

10 Routine Obstetric Care (1.7)

Too much
spending for a
few diseases

Total

PHP 30.2B or **40%** of total

claims

covers only

3 of the Top 10 Diseases

Your Partner in Health

MAIN GOALS OF PHILHEALTH

Main Goals

Financial support to Filipinos, prioritizing the **most burdensome diseases**

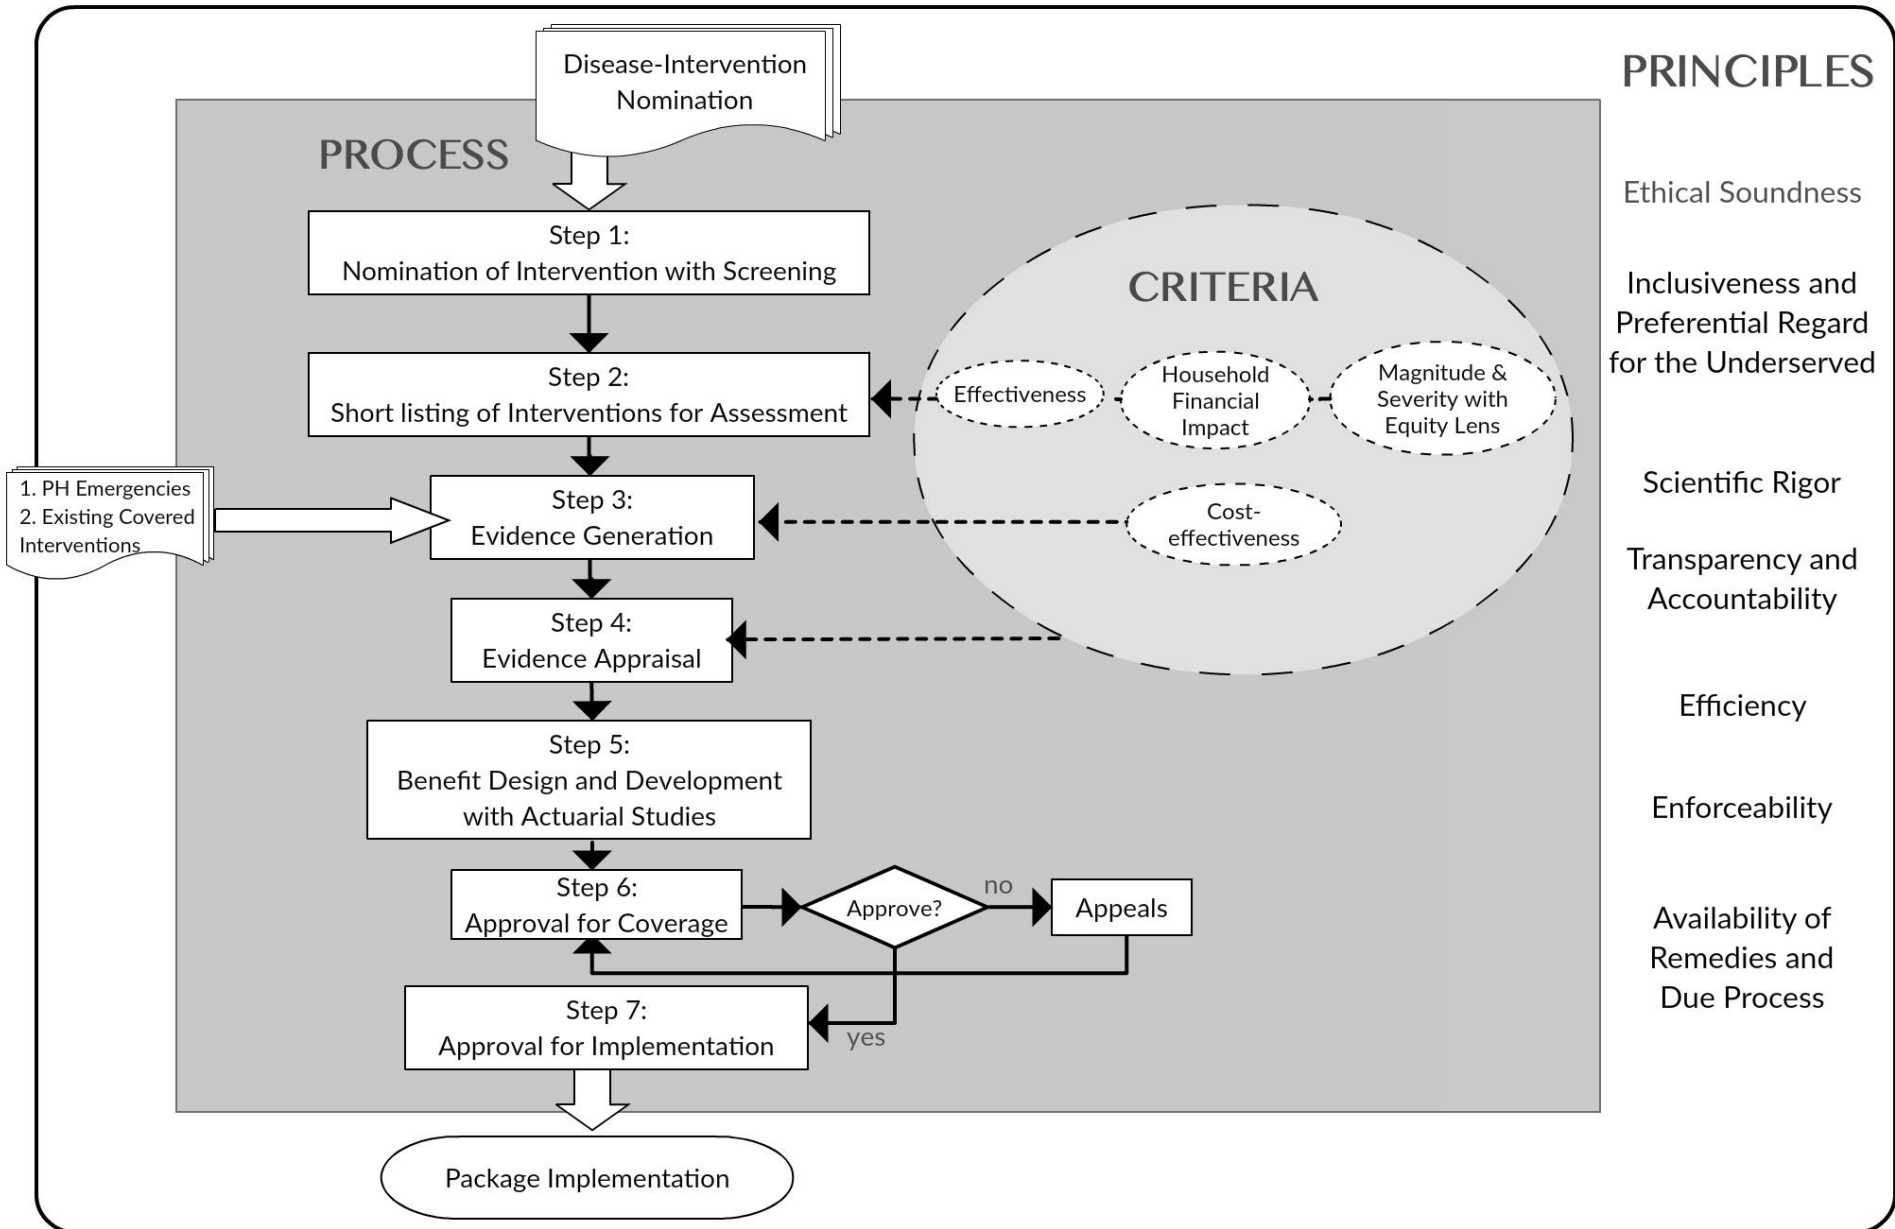

Value for money!

BEST CARE for the patient at the **BEST PRICE**
-**Maximise** PhilHealth support by covering the **most cost-effective services**

Public Health Emergencies

Existing Interventions

4

Appraisal of Evidence

5

Benefit Package Design and Development

6

Approval for Coverage (Appeals)

7

Approval for Implementation

LESSONS LEARNED

Lessons Learned

Improve the policy process - efficiency, transparency, consultation, evidence-base (use of both global and local data on burden of disease and cost-effectiveness intervention)

Ensure high level attention and broad networking and advocacy

Explicit criteria on what services to include in benefits packages

Promote use of Clinical Practice Guidelines to establish standards of care and promote quality
