With this development, the EC program will be able to serve more Filipino workers.

To enhance ECC's services as a quasi-judicial mandate, it also reduced the process cycle time for deciding appealed cases or claims denied by its administering agencies (SSS and GSIS) from 40 working days to 20 working days.

The 3Es strategy has been an effective tool in living out ECC's commitment of being the primary agency in the Philippines that provides benefits for work-related contingencies. It became the battle cry of ECC as it also represents the burning passion, persistence and dedication of all employees of the Commission.
